Integration with Performance: The Next Level in Sensitivity, Simplicity, and Efficiency

The Dimension® EXL™ Family of Integrated Chemistry Systems Delivers...

- Enhance workflow through sophisticated integration that permits simultaneous processing of chemistry and immunoassays
- Run any test with no manual preparation
- Consolidate workstations without compromise

LOCI Advanced Chemiluminescent Technology for Fast, High-Quality Results

- The only homogenous chemiluminescent technology available
- All testing can be done from one tube
- Streamlined processes with fewer reaction steps help speed up turnaround time
- Superior sensitivity with direct analyte measurement
- Improved precision and reliable accuracy
